

School and Online Threats of Violence

Because the act of violence has not occurred, the incident should be reported under offense file class 13003- Intimidation/Stalking.

- Unlawfully placing a person in fear of bodily harm through use of threatening words AND/OR
- Other conduct without displaying a weapon or physically attacking victim.
- Includes stalking and threats in person, over the telephone, or in writing.

Note: The victim type for 13003 must be a person, not a business or other victim type option.

Bomb Threat: If there is a bomb threat, the individual who received and reports the threat to law enforcement should be listed as the victim. If the target population is large (school, large building), all those within the building should not be listed as victims. However, if a bomb threat is called into a place where two to three people are gathered, all victims should be listed.

Social Media Threat (Cyberbullying): If a direct threat is made towards an individual or group of individuals they should be listed as the victim(s).

Reported by "OK2SAY": If a police agency receives a report from "OK2SAY," the individual from "OK2SAY" should be listed as the victim.

Cyberbullying Resulting in Death: When a death occurs due to cyberbullying, 13003 is entered to acknowledge and capture the assault. The suicide itself is not a MICR reportable offense. In these cases, MICR captures the Victim Circumstance option "Cyberbullying Resulting in Death."
